Odisha, India

EXPERIENCE

Paira Labs Pvt. Ltd.

Frontend Developer

Apr 2023 – Oct 2024

Bhubaneswar, India

- Built web and mobile apps using React.js, Next.js, Remix.js, and React Native (Expo) for HRMS platforms.
- Implemented form validation, attendance tracking, and role-based access across platforms.
- Converted Figma designs into interactive UIs and integrated REST APIs for authentication and data syncing.

Squbix Digital

React Native Developer

Nov 2024 – Present

Bhubaneswar, India

- Developing production-grade mobile apps with React Native and Expo.
- Focused on task flow management, real-time updates, and push notifications.

PROJECTS

Akshify – Task Management App | *React Native, Redux, Node.js, MongoDB*

- Built a task manager with role-based access for companies and employees, supporting task creation, status updates, and real-time tracking.
- Used Redux, AsyncStorage, and custom APIs for session persistence and backend integration.

RailTask Pro – Admin Dashboard | *React Native, Redux, Node.js*

- Designed an admin dashboard for railway task allocation with real-time updates, reassignment, and performance metrics.
- Supported file uploads, status validation, and department-wise task segregation.

Cryptocurrency Tracker | *React.js, Coingecko API, Chart.js*

- Created a responsive crypto tracker with live charts, market data, and search/filter features using Coingecko API.

ACHIEVEMENTS

Launched production-grade Android apps using Expo + React Native with responsive UI and smooth performance.

Optimized web apps with Next.js and Remix for better SEO and faster load times.

Designed scalable front/back-end architectures that supported growing user bases.

Collaborated with cross-functional teams to deliver quality apps on time.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, SQL

Frameworks & Libraries: React.js, React Native, Next.js, Node.js, Express, Redux, Tailwind CSS

Mobile Development: React Native, Expo

Databases: MongoDB, MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, VS Code, Postman, Docker, Firebase

APIs & Testing: REST APIs, GraphQL, Jest

Practices: Agile Methodologies, Test-Driven Development (TDD), CI/CD Pipelines, Version Control
