PROJECTS

Staffezy HRMS Management Software | *Remix, TypeScript, Tailwind CSS* | Live Demo **4**
- Developed a comprehensive HRMS platform with real-time attendance tracking, project management, and role-based access control.

Social Media Application | *Expo, React Native, React-Native-Pell-Rich-Editor, async-storage* **4**
- Developed a social media app with user authentication, including login and signup screens.
- Implemented profile management features such as edit profile and image/video uploads.
- Utilized @react-native-async-storage/async-storage for managing user sessions during login and logout.
- Integrated a rich text editor using the React-Native-Pell-Rich-Editor for creating and editing posts.

Cryptocurrency Tracker | *React.js, Coingecko API, Chart.js, Material UI* | GitHub Repo | Live Demo **4**
- Developed a cryptocurrency tracker with real-time price updates, trending coins, and interactive charts using Chart.js and Coingecko API.

ACHIEVEMENTS

Launched high-performance Android apps using Expo-React Native, ensuring seamless user experience with a responsive design.

Optimized web applications for peak performance using Next.js and Remix, achieving faster load times and enhanced SEO.
