## PROFESSIONAL SUMMARY

---

React Native Developer with 3+ years of experience designing, developing, and deploying scalable mobile and web applications using React Native, React.js, Next.js, TypeScript, JavaScript, and Node.js. Experienced in building real-time applications with Socket.IO, live location tracking, Mapbox integration, geofencing, payment gateway integrations, push notifications, and RESTful APIs.

## TECHNICAL SKILLS

---

|                               |                                                                            |
|-------------------------------|----------------------------------------------------------------------------|
| <b>Frontend &amp; Mobile:</b> | React Native, Expo, React.js, Next.js, Remix.js, Expo Router, Tailwind CSS |
| <b>Languages:</b>             | JavaScript (ES6+), TypeScript, HTML5, CSS3                                 |
| <b>State Management:</b>      | Redux Toolkit, RTK Query, TanStack Query, Zustand, Context API             |
| <b>Backend &amp; APIs:</b>    | Node.js, Express.js, REST APIs, JWT Authentication, Axios                  |
| <b>Real-Time:</b>             | WebSockets, Firebase, Mapbox, Google Maps, Razorpay, Paytm                 |
| <b>Tools:</b>                 | Git, GitHub, Postman, Figma, Expo EAS, Android Studio                      |

## PROJECTS

---

**WISBOX** Food Ordering Restaurant Management Platform

**Tech:** React Native, Socket.IO, Firebase, Mapbox, Razorpay

- Developed a multi-role food marketplace ecosystem (Customer, Vendor, and Admin) supporting takeaway orders, dine-in ordering, table reservations, pre-booked meals, and restaurant business management.
- Built advanced reservation workflows including table booking with or without menu pre-selection, partial/full payment support, slot management, and real-time reservation status updates.
- Implemented real-time order lifecycle management using Socket.IO, enabling auto/manual order acceptance, instant customer notifications, live order tracking, payment verification, and order completion workflows.
- Integrated Mapbox-powered location intelligence, geofencing, nearby restaurant discovery, store check-in/check-out system, location-triggered notifications, and single-active-venue session management.
- Developed secure payment, authentication, push notification, inventory, CRM, analytics, and multi-outlet management

**RADIANTS MMG** Material Management GRN Platform

**Tech:** React Native (Expo), TypeScript, TanStack React Query, Axios

- Developed a material lifecycle management application for electricity infrastructure projects, covering GRN, allocation, installation, verification, and transfer workflows.
- Implemented role-based dashboards and dynamic permission-driven access for Store Managers and Field Users.
- Built barcode scanning, GPS-tagged installation proof capture, photo/PDF uploads, and defect reporting modules.
- Developed store-to-store and field-to-store transfer management with real-time workflow tracking and audit history.

## QUICKREVIEW

AI-Powered Review Management Platform

**Tech:** React.js, TypeScript, Vite, TanStack Query, LLM API

- Built an AI-powered review management platform enabling businesses to create branded QR codes linked directly to their Google Review pages.
- Developed a dynamic business onboarding system where merchants register their shop details, category, tagline, and Google Maps review URL to generate customized, marketing-ready QR codes.
- Integrated LLM APIs to generate personalized, context-aware review suggestions based on business type, allowing customers to instantly copy reviews and submit them on Google with a seamless workflow.
- Implemented a QR-based customer journey where users scan a code, receive AI-generated review content, and are redirected to the business's Google review page for quick submission, improving customer engagement and review conversion rates.

## PROFESSIONAL EXPERIENCE

---

### CPS PVT. LTD.

React Native Developer

Sep 2025 – Present

Bhubaneswar

- Leading development of a multi-vendor marketplace platform with Admin, Vendor, and Customer applications.
- Built scalable onboarding, booking, pricing, payment, and location-based service workflows.
- Managed Expo EAS deployments, Play Store releases, and application performance optimization.

### SQUBIX DIGITAL

React Native Developer

Nov 2024 – Aug 2025

Bhubaneswar

- Developed telemedicine applications and healthcare platforms for patients and providers.
- Integrated real-time video consultations and communication systems using Zego Cloud.
- Implemented authentication, appointment scheduling, notifications, and payment workflows.

### PAIRALABS PVT. LTD.

Frontend Developer

Apr 2023 – Oct 2024

Bhubaneswar

- Built SEO-optimized web applications using React.js, Next.js, Remix.js, and TypeScript.
- Developed responsive user interfaces and integrated REST APIs across multiple projects.
- Improved application performance, accessibility, and overall user experience.

## EDUCATION

---

### BPUT

Master of Computer Applications

2023 – 2025

Odisha

### BHADRAK AUTONOMOUS COLLEGE

B.Sc. ITM

2019 – 2022

Odisha
